

Are you looking for more creative freedom, more personal fulfillment and even more team spirit? **Then SNP is the right place for you!**

The **SNP Group** isn't just another SAP software and consulting firm. Our unrivaled platform streamlines transformation processes in ways that others can only dream of. As pioneers in data transformation, we revolutionize the way companies future-proof their system landscapes with our software platform SNP Kyano and the BLUEFIELD™ approach.

No matter your role, **Starting at SNP** offers you the opportunity to work with the best minds in the industry and develop unparalleled solutions trusted by some of the world's largest companies. Leveraging our expertise to empower our customers to achieve their goals is what drives us as a team at SNP.

Help us shape the digital future of organizations across the world by applying now as a

Senior Java Developer (f/m/d)

You can work remotely or at our location(s) in Heidelberg, Hamburg, Berlin, Thale, Magdeburg or Munich

Your Mission: Join our team!

- Take ownership of the overarching system architecture, defining the technical vision and strategy for enterprise-level Java applications.
- Design scalable, secure, and resilient microservices and distributed systems, ensuring high performance and long-term maintainability.
- Lead technical decision-making, evaluating new frameworks, tools, and cloud technologies to keep the tech stack modern and efficient.
- Together with other architects, you will mentor and guide engineering teams, promoting best practices in clean code, design patterns, and test-driven development.

What we are looking for: Your profile

- Extensive hands-on experience in software engineering with a strong focus on backend development using Java.
- Proven track record as a Software Architect or Technical Lead.
- Deep expertise in Java ecosystem and frameworks, particularly Spring Boot.
- Solid understanding of cloud-native infrastructure (AWS, Azure, or GCP) and container orchestration (Docker, Kubernetes).
- Knowledge of SQL databases, message brokers (e.g., Kafka, RabbitMQ, ActiveMQ), and caching strategies.

- Collaborate closely with product management, stakeholders, and other architects to align technical solutions with business goals.
- Work with other architects to establish and enforce architectural standards, ensuring robust API design, data modeling, and seamless integration between services.
- Drive improvements in CI/CD processes, deployment strategies, and overall DevOps culture within the engineering organization.
- Stay ahead of technology trends and assess their relevance and potential impact on the organization.
- Strong background in CI/CD, DevOps practices, and infrastructure as code.
- Experience with AWS services is an advantage.
- Exceptional communication skills, with the ability to translate complex technical concepts to non-technical stakeholders.
- Strong communication skills in English (German is a plus).

Be More @SNP: Discover your full potential

New prospects: At SNP, you will work in an international, diverse environment where you feel truly valued. You will not only shape our growth and success, but also that of our customers.

Strong alone, unbeatable together: Together, we will rise to every challenge, no matter how demanding. Together, we are unstoppable.

Personal growth: As a dedicated team member, you can quickly take on more responsibility. We will support you with tailored development measures.

Flexible work: We define your preferred working hours and place of work together with you.

More than just a salary: We offer a range of additional benefits: Supplementary company health insurance, company pension scheme, capital-forming payments, sabbatical, job bike, Deutschlandticket and other mobility solutions, childcare subsidy for non-school-age children, gym subsidy, employee shopping discounts and much more.
