

Are you looking for more creative freedom, more personal fulfillment and even more team spirit? **Then SNP is the right place for you!**

The **SNP Group** isn't just another SAP software and consulting firm. Our unrivaled platform streamlines transformation processes in ways that others can only dream of. As pioneers in data transformation, we revolutionize the way companies future-proof their system landscapes with our software platform SNP Kyano and the BLUEFIELD™ approach.

No matter your role, **Starting at SNP** offers you the opportunity to work with the best minds in the industry and develop unparalleled solutions trusted by some of the world's largest companies. Leveraging our expertise to empower our customers to achieve their goals is what drives us as a team at SNP.

Help us shape the digital future of organizations across the world by applying now as a

Strategic IT-Infrastructure Architect (w/m/d)

You can work at our location(s) in Heidelberg, or Bratislava

Your Mission: Join our team!

- Develop and maintain enterprise IT infrastructure strategy aligned with business objectives.
- Lead architecture design for client infrastructure, on-prem data centers, and network systems across all locations.
- Drive infrastructure modernization initiatives, including cloud migration and automation.
- Collaborate with stakeholders across business units to ensure infrastructure solutions meet operational and strategic needs.
- Ensure governance alignment with ISO, SOC2, ITSM, and other compliance frameworks.

What we are looking for: Your profile

- 5+ years of experience as IT Architect or IT leader
- Deep technical expertise in enterprise infrastructure, networking, and identity management.
- Strong understanding of the ITSM process, with proven successful implementation experience.
- Knowledge of compliance frameworks (ISO, SOC2) and IT governance principles.
- Experience in guiding cross-functional teams as well as working in multicultural environments supporting IT teams around the globe
- Proven ability to drive innovation and adopt emerging technologies.

- Establish disaster recovery and business continuity strategies for critical infrastructure components.
- Drive innovation by evaluating emerging technologies and recommending adoption where beneficial.
- Strong strategic planning and architectural design capabilities.
- Excellent communication and stakeholder engagement abilities that allow you to connect with various management levels and negotiate with vendors.
- Analytical and problem-solving skills for complex infrastructure challenges.
- Excellent language skills in English, German is a plus

Be More @SNP: Discover your full potential

New prospects: At SNP, you will work in an international, diverse environment where you feel truly valued. You will not only shape our growth and success, but also that of our customers.

Strong alone, unbeatable together: Together, we will rise to every challenge, no matter how demanding. Together, we are unstoppable.

Personal growth: As a dedicated team member, you can quickly take on more responsibility. We will support you with tailored development measures.

Flexible work: We define your preferred working hours and place of work together with you.

More than just a salary: We offer a range of additional benefits: Supplementary company health insurance, company pension scheme, capital-forming payments, sabbatical, job bike, Deutschlandticket and other mobility solutions, childcare subsidy for non-school-age children, gym subsidy, employee shopping discounts and much more.
